

Barton Combined Sewer Overflow (CSO) Control Project

Utility work to start as early as Tuesday, May 6

Daytime parking restrictions and local access only

Starting as early as Tuesday, May 6, King County's contractor, Goodfellow Brothers, Inc. will begin utility relocation work on the 7900 block of 31st Avenue SW to make room for future roadside rain gardens. These rain gardens are part of the Barton CSO Control Project to reduce overflows of stormwater and sewage into Puget Sound during heavy rains. **This work will last up to three weeks. Later this spring, crews will return to start construction of road side rain gardens.**

Activities on your block

- Sawcutting sidewalk and road.
- Removal of street panels to access utilities.
- Some water and side sewer relocations.
- Concrete work to repair panels.

What to expect

- Work hours Monday through Friday, 7 a.m. to 5 p.m. Advance notice will be provided for any work outside those hours.
- Seattle Public Utilities will work with individual residences on any water service interruptions. Crews will coordinate with homeowners for sewer relocations as needed.
- Noise and activity typical of a construction area.
- Construction materials and equipment on the street.
- Local and emergency access will be maintained, although local access may need to be coordinated with construction crew.
- Uninterrupted delivery of mail and packages and uninterrupted waste management pick up.
- All work to occur in public right-of-way.
- **The project website will be updated at the beginning of each week with more detail about current construction activities. Visit www.kingcounty.gov and search "barton cso-gsi".**
